

MEMBER UPDATE

STARTFORWARD

"He was extremely helpful, It was really great to have a skilled volunteer work with me, I am so grateful for everything he did to help at RHS Tatton."

We are about to start our next cohort this week, and it's been all systems go at the RHS Tatton Flower Show. Over the past month our STARTforward member has been successfully volunteering, constructing the two curved benches - centre pieces to the garden, and volunteering his time helping with the garden construction, and on site joinery.

the member stated " I am definitely now closer to my goal of getting back to work, I know all the volunteering I am now doing, wouldn't have happened before."

We are actively accepting referrals to set up a new cohort to run alongside the existing one - so please send enquires and referrals to:
